

INTRODUCTION TO USER INTERFACES.

A bit about me.

Science & ALC @ John Abbott College.

Computer Science & Neuroscience @ McGill University.

Most of my professional experience comes from startups.

Getting started.

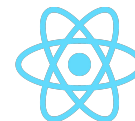

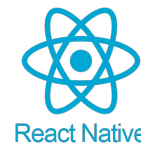

VSCode.

Extensions, shortcuts, and so much more.

HTML vs. CSS vs. JavaScript

What's the difference?

Which language would you use for
changing the color of a button?

What about for when you put paragraphs of text on a webpage?

...or creating an animation?

```
<h1>WOW</h1>
```

```
<I_AM_A_TAG>Hello There</I_AM_A_TAG>
```

```
<p>With these 2 'p's i am an element</p>
```

```
<img>
```

DEMO.
